In clamoring for "free raw material the Democratic party is true to its tra-ditions. For half a century it has im-ported without restriction the "raw material" from which Democratic voter s have been mannfactured.

THE news comes from Fall River Mass., the great cotton manufacturing center, that the wages of 25,000 employes are to be reduced from 10 to 121 per cent. Let's see; has the Sherman Law, which was the cause of business paralysis and low wages, ever been repealed?

THE Commercial Gazette says there was an international conference held in July at Manchester, England, of cotton spinners and kindred

workers. The report showed great improve-Wages. ment in the condition

of the English work-men in these classes, not only in the amount of wages paid, but in the reduction of hours of labor, which are now on an average 56} per

The Belgium delegates stated that their working hours were 79 per week, a little more than 13 hours per day. At Lille the spinners and weavers worked 12 to 13 hours per day, and the wages were from 14 to 18 francs—that is, from

\$2 66 to \$3 43 per week.

Delegates from Holland put the condition of spinners and weavers very clearly when they said they are no meat.

except occasionally horse flesh, and their nsual food was potatoes and bread. It is to these hours of labor, these wages, and this fare of "potatoes and bread, with occasional horse flesh," that the Democrats are trying to permanently reduce the wellpaid and well-fed Ameri reduce the wellpald and well-ted Ameri-can workingman. The mere threat that is conveyed by the supremacy of Demo-eracy has reduced wages from ten to twenty per cent, and has deprived tens of thousands of any wages at all by closing up bundreds of factories and milis

of all kinds.

The reduction of wages of that great class of wage-workers in the manufact-uring industries, which numbered in 1889, as shown by the census, 4,711,000, and was probably 5,500,000 in 1892, means a reduction in their purchasing power and therefore in the prices of all that the other great class of workers, the agriculturists, produce. In this case

agriculturists, produce. In this case the injury of one is the injury of all.

There is but one remedy for the tercible conditions that exist and the more acrible once threatened. The Republican party gave prosperity. The Republican party can restore it. After the nat lection the workingmen will see to it has Republican wages will be restored. They will try no more experiments.

IT cost the state of Indiana \$50,000 to appress DRBS's riotons strikers; and the neat of it is that the workingmen will have to foot most of the bill.

DURING July 11,539 steerage paseen-gers arrived in New York, one-half of whom were not immigrants, and 19,908 left New York, all of whom were emi-grants. This is a "balance of trade" that we will be always glad to have against us; but it will be a trifle rough n the Democrats about election times

May who have noticed the beaulifully lighted stores of Mesers. W. C. Miner, J. H. and J. C. Pecer have wondered what new style electric lamp they were using. The fact is, however, that the light is nade from plain every day gas with the Welshach incandescent hurner and it can be fitted to any gas fixture in five minutes. The Welshach consumes thout half as much gas is the ordinary

and it can be fitted to sity gas manuse.

We enhance a The Welshed consumes about half as much gas as the ordinary in burner and gives nearly four times as much light and no flickering—absolutely a steady soft, white light that in grateful to the most sensitive eye. For prices and full particulars call on Ballenger the Jeweler.

The Monk!

Mr. Lewis was a member of the Hirlish Parliament, and his book became so popular in England a hundred years sgo that it gained for him the title of "Monk Lewis."

It is a fine piece of classic com-position, and after being out of print for many years it has been republished from the original

it is far superior to "Marl Monk" and books of that char

Jeweler. Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkanasas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer! had a very severe attack of flux. I tred almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhova Remedy was recommended to me. I purchased a bottle and received almost Immediate relief. I continued to use the medicine and was entirely cured. I take pleasure In recommending this remedy to any were. C. D. OUTTEN HAS
